Retransmitting rejected returns on extension August 20, 2006

Transmitting late or returns on extensionOctober 16, 2006

Retransmitting rejected late or returns on extensionOctober 20, 2006

Annually, the Arizona Department of Revenue requires software developer's products to be tested and approved prior to the implementation of their software applications. While the Arizona Department of Revenue strives to approve software applications in a timely fashion, occasionally a vendor's test will need to be reviewed more than once to assure that standards are met. This, combined with a late submission of test materials, may cause delays in software vendors providing their services to you. To avoid such delays, the Arizona Department of Revenue encourages software vendors to submit their programs in a timely fashion, so the approval process can be completed prior to the beginning of the live e-file transmission date.
